

race pride means. given our honor for the position now held by Hon. B. K. Bruce tells all the world that race love is greater with them than party affiliations.

Dr. M. O. Ricketts is a giant in his state. Put Ricketts, Barnett, Bell, and Franklin together in Nebraska and so far as the colored man's interest is concerned the work is done.

Barnes has the contract to furnish all the state institutions with coffee. He is now Mayor of this city. The day may not be far off when he will be governor. Barnes is a hustling A. P. A.

Colored men remember that the Pope's representative Monsignor Sattoli celebrated his first Mass in this country in a Negro church in Washington. Archbishop Ireland has always talked in our favor and the Council of Nice opposed slavery. Where was the A. P. A.' society then?

Will the A. P. A. society remember that there are Negroes in this country who have rights equal to those of other American Citizens? They cannot whip the Catholic church until they get right with the Negro. The religion, the society or anything else which ignores the black brother will not live long. Colored men do not be deceived. Study well what you are doing before joining this new movement. Donot jump out of the frying pan into the fire.

The school board, ought not to submit to any bulldozing. Let the howlers hold mass meetings. You have done your work. Stand by it. Be men. The mob spirit in this country should not be encouraged. The people elected you because they thought you were fully capable of running the schools. A pretty howdy do is this that if you elect a certain man the teachers will resign. Let them go. There will be a dozen applicants for each vacancy. We are friendly to Profs. Olin and Mead but it is well known that both of them have enemies in this city. We hope the Board will stand firm.

**PROF. L. L. HANKS.**

Prof. Hanks was elected last Monday night as the successor of Prof. Olin. We hope that this means only competent colored teachers of character in our schools. It is better to have the rooms closed than to appoint any woman as teacher who is without a certificate. Especially must no one be appointed about whom there are "shady" rumors. We predict for Prof. Hanks a successful administration. He is the right man in the right place. There is not in this city a student of the high school but what speaks of him

**Langston City Herald.**—Look here to be poor is no disgrace, except to the one who robbed you. If you haven't anything but rags, keep them clean, respect yourself, and hold a high head just the same.

**Parson Blade.**—It is, indeed, strange to know that christian organizations can hold so much prejudice against each other. As little as it is thought of this is one of the prime reasons why our people are so far from being united. Oh, brethren, this is wrong, gravely so nor is it consistent with the teachings of intelligence. If our ministers of the gospel regardless of creed or denomination, would teach their congregations the invaluable lessons of union among our people, their crowns would be brighter and adorned with more celestial jewels when they reach the Better Land.

Miss Ida B. Wells delivered a lecture on "Lynch Law in the South," in Edinburgh Scotland, recently. As a result of her lecture a society is being projected to be known as the Society for the furtherance of the Brotherhood of man.

**Lots of Mud Wanted.**

God wanted mud when He made a man so mean as to tell the postmaster to return his paper marked "Hellish" when he owes two or three years subscription. —Bon BRADSHAW.

**MEXICO MO.**

**MEXICO MO.** June 5, H. C. Devolder J. Ingalls of Kansas in his attempted solution of the race problem, betrayed very peculiar characteristics. We had nambullism and sensationalism. Undoubtedly he is affected with the fever, for the fact, that the citizens of Kansas gave him some sleep powder of a very potent nature during his campaign for re-election to the senatorship, and from the effects he has not fully rallied. Yet, in his sleep he continues to walk and interfere with affairs that only wide-awake men should manage in introducing deportation of the Negro to Africa, as the only remedy of relief for the race problem, especially when common sense teaches that such a step would not only be detrimental to American interest, but a parsonal impotability. No sensible person fails to recognize the latter characteristic sensationalism, for which Ingalls is noted, so long as prejudicial arbitrators endeavor to solve it. The white man is unequal to the occasion, and should keep hands off. It is a perplexity that the Negro alone can settle, by being of worthy character, by being of intelligent, thrifty, money making and money saving nature. Of the deportation theory, we have only this to say, when the Negro is compelled by provisions either statutory or compulsory, to vacate American soil, the last descendant of Ingalls, the advocate of Negro removal, will have been dead ten thousand years.

**Prof. I. J. Hicks, Misses M. J. Goods, Myra Hicks, N. E. Williams, and M. L. Shields,** are the thoroughly competent teachers selected by the school board at its meeting last week, for the ensuing year.

Some of our high society people are soon to enter the field of matrimony. We would tell more, but we must not.

week at the World's Fair. In writing about it to the Atchison Champion Tom Anderson says: "We will have an exhibit no citizen of KANSAS need be ashamed of. We expect the entire population to be at Chicago Kansas week and 'whop it up' for the 'sunflower state'." He concludes with the opening stance of Kansas exults, to be sung by the Medocs at the fair: "We'll triumph a glory by planted our West. A garden of Eden, the best of the best. O'er flowing with honey, it's paradise renewed. It really hasn't any mate. The identification since Dana Nature was here. Where everything grows for itself and more. And everything grows for the sake of the state is the beautiful 'Sunflower state'."

Lawrence Kansas furnished the world with three more Negro Lawyers this week. We expect to hear of them doing well, as when Master Gray, Ellis and Mesnard Organize them on their common go ahead boys and prove to Ingalls that it is a good thing to be a Negro.

Senator Martin has called the appointment of ways of an Abolished Thomas Kansas had explained just as he has covered all the other appointments in the state.

**OBSCURE TORIES**

**A Victim of Heroin.**

W. H. Fisher, an old colored lawyer preacher of Cambridge, O., with his wife recently split and told her he had a strain of heroin. The strain was gathered around the hospital and he would enter prison and he went there April 28 at 7 o'clock in the evening in spite of his friends' enticement and here made his preparations accordingly.

Though he trusted his case was all and there was no sign of coming resolution until just before the end of the time when he quickly lay down and died.

On the 13th of May a handsome granite monument was erected by the memory of the late James Robert Hogan the colored poet Laureate of Norfolk, Va. The Confederate camp and the Typographical Union attended in a body. The monument was erected by friends.

Perhaps the loss of the famous felon of Roger River Indians, died at Fairmountville Fla. last week. She had anticipated her death by preparing with her own hands a bucketful funeral robe, ornamented with beads, shells, turquoise and pebbles, etc., to an extent that brought the weight of the magnificent log shroud up to nearly fifty pounds.

The crab when being any its own's surface has well developed eyes, its deeper water only crystals are present—no eyes, while its specimens from still deeper waters, the eyes have joined, making a pointed bank.

**of Teachers of Women.**  
Miss Linda Weaver of Dan Mallow, is in the district office of 140-15th and I am. She can get a first teeth without pain.

Miss Francis Brown of Chicago has recovered \$2,500 damages for false imprisonment. Mrs. Brown was kept in
