 ... start, Triumph, 100; Hon Lopen, Lawrence, War
 ... Cry, King Dolly, 97; Adjust, Florence, Bell, Pink
 ... H., 95.

FOOT BALL IN KANSAS CITY.

Three, Probably Four, Games to Be Played Here This Year.

Foot ball has long been the most popular sport among the Eastern universities. Not only the student, but every one else plays—the business man on his athletic club eleven and the youth on the scrub organization of his school. Even the young ladies enjoy the sport, and an interesting struggle between the mighty athletes of Smith and Wellesley may soon be reported.

In the Southwest the sport is comparatively new, as games have been played only during recent years. The Y. M. C. A. and the Kansas City High school teams were among the first to play regular games here. Elevens were then organized in the different State universities, and the work has been carried forward with push and vim ever since.

For several years, contests between the knights of the dirty clothes from the universities of Missouri, Kansas, Iowa and Nebraska have been held in this city, and the increased interest taken in the sport shows that its popularity is assured.

The foot ball team of the Kansas university practiced as much as possible during the spring term and the players of the other elevens have had their minds on the fall games.

At the present time, three games have been arranged, all of which will be played in this city. The first game will be played on November 4 between the universities of Kansas and Iowa. Missouri and Nebraska will play on November 11, and the big game on Thanksgiving day will be between the rival teams of Kansas and Missouri.

Last year an attempt was made to arrange a game between the teams from the Kansas and Michigan universities. This year John Sullivan has revived the challenge, and it is probable that a game will be arranged to be played in Kansas City, November 14.

The Schmelaers, Jr., Field List.

The Schmelaers, Jr., base ball team is now composed of the following players: Tenita, pitcher;

Philadelphia. 10-0 2 2 0 0 0 1 5-10 10-1

Empire—Gaffney. Batteries—Kinslow and Kennedy; Clements and Carsey.
 Second game:
 R. H. E.
 Brooklyn.....0 0 3 0 0 0 2 2 x-7 7 2
 Philadelphia...0 0 0 1 1 3 0 1 0-6 6 3

Empire—Gaffney. Batteries—Daily and G. Sharrott, Vickery and Clements.
 New York, July 29.—Four thousand people saw New York defeat Washington this afternoon in a game that abounded with hard hitting and brilliant playing.

R. H. E.
 New York.....4 0 0 0 2 0 0 0 1-7 7 3
 Washington....2 1 0 3 0 0 0 0 0-6 6 3

Umpires—McQuaid and Horning. Batteries—German and Wilson, Esper and Farrell.

A Kankakee Bank Falls.

KANKAKEE, ILL., July 29.—The First National bank of Kankakee closed its doors today. The assets are \$224,000 and the liabilities \$147,000. The capital of the bank is \$50,000 and it was organized in 1871. Emory Cobb is president and stock-holder. The stringency of the money market caused the temporary suspension.

Another Lio Nailed.
 [Chicago Tribune.]

The prospectus of a gold and silver mining company in Colorado states that silver can be produced in its mines at a price that will always yield a profit. "There is enough gold in the ore to pay for mining it, and the silver yield will be nearly all profit." And the writer of the document has the supreme gall to follow this with the oft-told lie that silver is depreciated through the treachery of ignorant or designing politicians for the benefit of foreign capitalists or for the price of bribery. Pshaw. It would be just as reasonable to ascribe to these causes the decline in the prices of cotton cloth and iron and steel, when it is cheapening in the cost of production and transportation that enables the producers of these articles to sell them at far less money than was possible twenty years ago.

Need a Kansas City Manager.
 [New York Tribune.]

The Broadway cable up to the present time is far from being the success that was confidently anticipated by the public. Five times within a few weeks the service has broken down more or less disastrously. Wednesday the cable came to a stop about 3 p. m. and was not in operation for many hours. Meantime the cars remained where they had been brought to a halt all along Broadway, causing a serious obstruction to general traffic, in addition to the inconvenience to which a multitude of persons who depend on this means of transportation were subjected. Emphatically the cable service in New York needs to be greatly improved.
