**UNCLE SAM BORROWS GOLD.**

New York Bankers Said to Be Aiding the National Treasury.

**NEW YORK, Feb. 9.**—A local paper this morning says: The United States treasury is practically empty of gold. The banks have been obliged to come to the relief of the government to tide over the emergency. The secret has been well kept. Of the 3 1/2 million dollars in American gold that was shipped to Europe last Saturday 2 million dollars was loaned to the subtreasury by the banks of this city.

The entire supply of gold in the vaults of the United States treasury yesterday was \$108,176,938. Of this only \$3,176,938 is free gold. The remaining 100 million dollars must be held by law in the Treasury for the redemption of legal tender notes which are outstanding.

Nor has the drain of gold stopped. Arrangement were made by foreign bankers today for the shipment of 3 million dollars in gold next Saturday. Other shipments will probably be arranged for to-day. It was the impression in Wall street yesterday that this week's exports will reach about 5 million dollars. If this were taken from the Treasury it would leave only a little over 3 million dollars of free gold, probably hardly sufficient for a single week's supply.

George G. Williams, president of the New York clearing house association and also president of the Chemical National bank, spent a great deal of time yesterday arranging for a further loan of gold to the Treasury department. He went to several banks and declared that for the public good they should join in contributing of their gold reserves enough to keep up the supply of free gold in the Treasury to meet all demands until steps can be taken to otherwise meet the emergency. It is understood that the appeals were successful in all instances.

**THE SPELL TOO POWERFUL.**

An Amateur Hypnotist Succeeds Beyond His Wishes With a Friend.

**NEW YORK, Feb. 9.**—Thomas Esmond of No. 222 Christie street called on Robert Kremer, an amateur hypnotist of No. 225 East Eighty-fourth street, last night, bringing with him a friend, for whose benefit Kremer was anxious to exhibit his wonderful power over Esmond, and after some hesitation Esmond acquiesced. After a few passes Esmond became passive. He was pinched, pricked with a needle and his hair pulled, and he was otherwise mistreated without giving any indication that he experienced pain.

"Now I'll bring him to," said the hypnotist, and he made more passes, but Esmond continued staring vacantly before him.

Kremer became frightened and redoubled his efforts but without result. After laboring in vain for nearly an hour to restore his friend to consciousness, a physician was called. He failed to arouse the subject and the professor of hypnotism, under whom Kremer had studied, was sent for. He also failed. Esmond was in an alarming state this morn-

**THE INSANE MAN EJECTED AT LAST.**

Deputy Sheriff Galt Possession of Conductor William Kyle's Home.

For over a year there have been in the sheriff's office papers, enforcement of which would dispossess William Kyle, a demented house-mover, of a house and lot, occupied as formerly owned by him at the corner of Eighteenth street and Johnson avenue. During this time Kyle has been barricaded in the house and, with the threat of instant death to anyone who might dare to disturb him, has defied the deputy sheriffs who, on a half dozen occasions, have attempted to dislodge him.

Last night, however, Deputies Carroll and Colgan succeeded in planting their colors inside the breastworks. By a quick sortie the officers gained entrance to the kitchen. Kyle refused to move, however, and it was only upon the arrival of a policeman that he could be put into a hack and driven to a hotel for temporary shelter.

The papers enforced last night were in the form of execution writs in favor of the Jarvis Conklin Mortgage Trust company and were obtained upon a judgment in its favor in a suit in ejectment decided about a year ago. Kyle's debt consists of unpaid taxes amounting to \$1,800, and he allowed the property to be sold under a tax deed which, through various sources finally came into the hands of the Jarvis-Conklin Mortgage Trust company. It has withheld from enforcing its right up to this time on account of the man's demented condition. Kyle had become insane upon Biblical subjects and at his home had a map of heaven and the nether regions. He had not been seen in the day time for many weeks for it was only during the night that he ventured from his lonely home for purchasing food or laying in a stock of fuel.

**TO LEAVE IT TO THE POLICE.**

The Council Will Not Attempt to Fix a Limit for Weight of Wagon Loads.

At an early meeting of the city council an ordinance will be introduced to repeal the ordinance which provides that two tons of freight or coal or 900 brick shall be deemed a load for a draft team. During this icy weather, more than any other time, it is apparent that a load which is easy for some teams to haul is too heavy for others. There is a difference in the weight of brick, too, and while an ordinary brick weighs six and a half pounds, vitrified brick weigh about eight and a half pound each. The difference in a load as prescribed by this ordinance is 1,800 pounds. Either is heavier than the two ton load, as 900 ordinary brick will weigh 5,950 and 900 vitrified brick will weigh 7,750. It is proposed to do away with this ordinance and depend upon the old overloading ordinance, which leaves it discretionary with the police to decide when a load is too heavy.
