HARD TIMES.

The United States Treasury in Another Predicament.

RECEIPTS NOT UP TO THE MARK.

Expenditures Away Beyond—Pensions Make an Additional Dip of \$24,000,000—The Treasury About \$10,000,000 Short.

WASHINGTON, May 3.—Added to its embarrassment because of the gold stringency, the treasury department is confronted now with the prospect that during the current year the disbursements of the government will be \$10,000,000 in excess of the receipts. The secretary of the treasury estimated in his last annual report that the receipts for the year would be \$988,000,000. A conservative estimate, based on receipts for the ten months ended yesterday, placed the annual receipts at \$2,000,000 higher than the secretary's estimate. The same estimate of yesterday on expenditures, based on figures for the same period, places the sum total at \$395,000,000, or about \$1,000,000 more than the total revenue.

For the ten months of the current year the revenues were increased \$20,000,000 over the corresponding period of 1892, but the expenditures also increased to an amount which required a draft on the surplus of \$8,000,000 to meet current liabilities. A comparison of the expenditures for the ten months of 1893 and those for the same period of the preceding year show an increase of expenditures in round numbers as follows: Civil and miscellaneous, \$5,000,000; war, \$3,000,000; navy, \$3,000,000; pensions, \$24,000,000; interest, \$7,000,000.

The same comparisons show a decrease in the following items of expenditures over the preceding year as follows: National banks, \$7,000,000; Indians, \$5,000,000. It will be seen that the increase of pensions alone of \$24,000,000 more than doubly accounts for the excess of expenditures over receipts, which, as before stated, amounts to \$10,000,000.

WEATHER CROP BULLETIN.

Last Week the Third of the Unusually Cold and Wet Season.

WASHINGTON, May 3.—This is the third consecutive cold and unfavorable week throughout the principal wheat and corn producing states. The week was unusually cold in the states of the upper Mississippi and Missouri valleys, where the daily temperature ranged from 5 to 15 degrees below the normal and closed with freezing weather, but the indications are, however, for more favorable conditions during the coming week in the northwest. The temperature was slightly below the average from the

er's, reports that he is in receipt of a letter from Freight Traffic Manager Parker, of the Missouri Pacific railroad, acceding to the demands of the hay dealers in Kansas City, granting forty-eight hours free trackage. The Santa Fe and other roads having already made like concessions, it now seems probable that the long standing dispute between the hay dealers and the railroads is to be amicably settled.

Boiler Explosion.

MITCHELL, Ind., May 3.—Yesterday morning, a few miles west of Mitchell, a sawmill boiler exploded, fatally wounding Francis Baker and seriously injuring three others, whose names have not been learned here.

MISSOURI SUPREME COURT.

Capital Sentences Affirmed—The Pool Law Constitutional—Etc.

JEFFERSON CITY, Mo., May 3.—Division No. 2 of the supreme court yesterday handed down decisions in quite a number of criminal cases, one of which is that of Amanda Umble, a negro woman who stabbed and killed Effie Jackson, colored, in Kansas City in May, 1891. She was tried and convicted of murder in the first degree and the supreme court affirms this sentence and fixes the date of execution for June 22, 1893.

George Schaefer will also hang unless executive clemency intervenes in his behalf. He was tried and convicted of murder in the first degree in the criminal court of St. Louis for killing Henry Gratton in September, 1891. This sentence is affirmed by the supreme court and Schaefer's execution is fixed for June 22, 1893.

The case of John Stern, of Webster county, is affirmed. He tried to poison a man named Henry Anderson and received a sentence of two years in the lower court.

A Ralls county druggist named William H. Johnson was convicted of seduction in the lower court and sentenced to two years in the penitentiary. This sentence was affirmed.

Mitchell, Smith & Co. secure damages in the sum of \$3,500 from Bradstreet's Commercial agency. The St. Louis business publication of that agency published a line November 25, 1889, to the effect that Mitchell, Smith & Co. had assigned. This was not the case, but the item put the firm in bad shape, hence the suit. The supreme court says the damages are not excessive.

C. J. Foster, of Dallas county, was convicted of murder in the second degree and sentenced to ten years' imprisonment for the killing of Joseph Reed in December, 1891. Judge Sherwood rendered the opinion in this case.

In the case of H. H. Blackstone, of Butler county, the constitutionality of the law prohibiting the keeping of pool and billiard tables in dram-shops is upheld by Judge Sherwood, who says that it is valid.

Hang Tong, a St. Louis Chinaman,

MARKET REPORTS.

Money Investments.

NEW YORK, May 2.—The market developed weakness soon after the opening and prices declined in the entire list. Manhattan dropped 3/4 to 240, National Cordage 8/4 to 49 1/2, Sugar 8/4 to 9 1/2, General Electric 1 1/4 to 9 1/4, Western Union 2 to 8 1/4, Missouri Pacific 1 1/4 to 43 and Late Shore 1 1/4 to 126 1/2. The other losses were less important. The decline brought in buyers and a rally of 1/4 to 3/4 ensued.

The market after 11 o'clock showed a little more confident feeling on the part of the trading element. Liberal purchases by London of Atchison, Louisville & Nashville, Erie and others contributed to the improved feeling. A further advance of 1/4 to 1 was recorded in leading shares. Among the specialties, Tobacco broke 4 to 70.

Kansas City Live Stock.

KANSAS CITY, May 2.—Receipts, 6,478 calves, 183; shipped yesterday, 1,810. The market was active and strong to 100 higher throughout. The following are representative sales:
