NEST COUNTER

NEW YORK IDLE TO PARADE

ONE HUNDRED THOUSAND MEN AT PRESENT UNEMPLOYED.

A Demonstration Being Arranged for the Purpose of Enlisting the Sympathy of the Public—Partial Lists of the Idle Hosts.

New York, Aug. 3.—Arrangements are being made for a demonstration to which New York is unaccustomed—a parade of the unemployed. It will probably take place next week, and will form a melancholy sequel to the magnificent displays illustrating progress and wealth on recent occasions of national remembrance.

Christopher Evans, secretary of the American Federation of Labor, said yesterday that he estimated that 100,000 men were out of work in this city. This includes nonunion men as well as men in all the various organizations.

The promoters of the parade argue that a peaceable parade of the supporters of families who "humbly ask their brethren to give them leave to toil," but for whom there is no opportunity, will be worth pages of statistics in bringing home to New Yorkers the conditions existing.

The cloakmakers have appointed a committee of twenty to communicate with other bodies of workmen and ask their co-operation. There are 7,000 cloakmakers out of work. Some have been idle since spring. Their right to take the initiative in the movement is conceded by reason of their extremity. The union has been doing all that it could to relieve the distress in its ranks, but the drain upon its funds has been enormous, and its purse is becoming perilously light.

THOUSANDS OF MEN OUT OF WORK.

The committee on the parade was elected on Saturday evening at a special meeting of the various branches of the union. The co-operation of the barbers and cigarmakers has already been promised to the committee. There are about 9,000 bakers in New York, including men of all organizations and non-union men. Of these nearly 4,000 are unemployed. This is a most significant fact. Bread is the last necessity in which the poor man in hard times will stint himself. In order to deprive so many bakers of employment, the consumption of bread must have been greatly reduced.

Of cigarmakers organized and unorganized there are 25,000; and no fewer than 10,000 are not earning wages. The demand for cigars has decreased since hard times came knocking at the door and the production has been much cut down.

The parade committee will send in invitations to the Central Labor union. This is composed of about seventy-five unions with an enrollment of 10,000 men. Its co-operation in the demonstration is anxiously looked for. Its members are, perhaps, up to the present time the least affected of all the organized workmen as it is composed for the most part of "skilled" trades, principally the building trades. The Central Labor Federation, in which there are thirty unions, with an aggregate membership of 15,000 will probably have a large delegation in the parade on "starvation day." The men in this federation are of such classes as waiters, piano makers, clothing workers, neck-wear makers, etc. It is estimated that 50 per cent of them lack employment.

WORKING FOR IRRIGATION.

Mass Meeting at Great Bend, Kas.—An Interstate Convention Called.

GREAT BEND, Kas., Aug. 3.—At a mass meeting here yesterday, resolutions were adopted calling on the national government in conjunction with the state governments to con-

FIVE YEARS MORE OF MULES.

The Change in the Prospect Avenue Line's Motive Power Postponed.

The property owners on South Prospect avenue and the management of the Fifteenth street cable line yesterday afternoon reached an agreement to postpone the change of motive power from mules to electricity for five years. An ordinance embodying this compromise was introduced in the lower house by the street, alley and grades committee. It was promptly passed and sent to the upper house, where after an animated debate among property owners, cable men and city fathers it was agreed to. For five years more mules will be the motive power on the Prospect avenue line. The property owners expressed themselves as preferring to have the compromise measure rather than wait twenty-five years for a change.

Both houses passed the appropriation ordinance promptly. The sum appropriated is \$68,000. That amount of currency will be put in circulation about Friday of the present week. The auditing committee made no hitch and a continuance of the June deadlock was averted.

The council passed a number of ordinances providing for public improvements. Some of them have been pending since the beginning of the present financial flurry. Their passage will insure work for the laboring men throughout the season. The principal ordinances passed was to pave Independence avenue with asphalt from Grand avenue to Highland, Baltimore avenue with macadam from Twenty-third to Twenty-seventh street, Third from Grand avenue to Locust and Bluff street from St. Louis avenue to Twelfth street. These ordinances call for the expenditure of about \$60,000.

GARBAGE SYSTEM IN WESTPORT.

An Ordinance Introduced Last Night for the Removal of Garbage by Contract.

Westport is to have a garbage system. An ordinance which provides that garbage handlers shall be licensed and placed under certain restrictions was introduced in the council last night and after a short but spirited debate was referred to the sanitary committee with instructions to the board of health and city attorney to meet and act with the committee. The ordinance provides that a licensed garbage hauler must remove the garbage from each house for which he has a contract at least three times a week. As there is no fund for this purpose in the city treasury he must depend for his pay on the individual householders and must not charge more than one dollar a month for each family.

The appropriation ordinance for the month, which called for \$2,612.23 for current expenses, was passed.

P. D. Etue sent a letter to the house stating that he had withdrawn injunction proceedings to prevent the city from making improvements on Locust street between Thirty-ninth and Forty-third streets with the understanding that the work was to be done at once. That was three months ago and the work is not done yet. If it is not completed within a month he proposes to bring proceedings again.

FRAKER'S EXECUTOR BUSY.

Evidence Being Collected to Back a Demand for Insurance Money.

EXCELSIOR SPRINGS, Mo., Aug. 3.—Judge Lincoln of Liberty, executor of the will of Dr. G. W. Fraker, who was presumably drowned near Camden about a month ago, has been actively at work gathering evidence necessary to accompany the demands for \$58,000 life insurance carried by the doctor. He has also filed his inventory and sale bill in the probate court and posted notices for the sale of the personality Saturday.

Legally, therefore, the doctor is no more; but opinion is much divided as to the actual fact. If there were no insurance feature connected with the case the doctor would, be un-

WITHOUT TIME

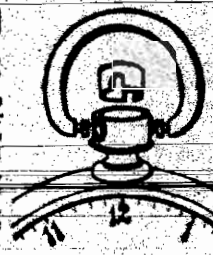

BOW (RING)

It is easy to steal or ring watches from a pocket. The thief gets the watch in one hand, the chain in the other and gives short, quick jerk—the ring slips off the watch stem, and away goes the watch, leaving the victim only the chain.

This idea stopped that little game:

The bow has a groove on each end. A collar runs down inside the pendant (stem) and fits into the grooves, firmly locking the bow to the pendant, so that it cannot be pulled or twisted off.

Sold by all watch dealers, without cost, on Jas. Boss Filled and other cases containing this trade mark— Ask your jeweler for pamphlet.
