NEW YORK'S IDLE WELL LED

NO TROUBLE WITH THE UNEMPLOYED FEARED BY THE POLICE.

The Men at the Head of the Unemployed Conservative and Law Abiding—Public Work Advocated as the Best Means of Settling the Problem.

NEW YORK, Aug. 21.—There has been no necessity to call out the police reserves to check disturbances by the unemployed and it is the general belief now that there will be none. The men in control of the forces of labor are conservative and law abiding and all attempts of Socialists and Anarchist agitators to influence the masses are frowned down.

Yesterday afternoon delegates from the trades unions held a meeting to devise means to assist the unemployed and to plan a great labor demonstration. President Gompers of the National Federation of Labor presided. During the discussion, which continued for four hours, a few persons advanced socialistic ideas, but the majority counseled coolness and prudence. Resolutions were adopted asking all labor organizations and sympathizers to co-operate with the conference, calling for appeals to the mayor and city officials and the state authorities to open up new public work to give employment to the idle and asking civil justices to refuse to grant eviction notices on unemployed workmen for nonpayment of rent.

The principal address of the day was made by Mr. Gompers, who declared that the wealthy classes were responsible for the present troubles and should provide means to help those out of work. He held that nothing was to be gained by law breaking. Public improvements were the best methods of furnishing work to the idle and prison labor should cease. George C. McNeil of Boston, Victor Delahaye of Paris, Henry de Koster and Delegate Davies also spoke.

Morris Klinterstein, a wealthy German, has begun furnishing dinners daily to 1,000 unemployed persons.

Lewis Vischifsky, an idle tailor, was arraigned in the police court yesterday for advocating anarchist views at a meeting Saturday. The officers who made the arrest could not swear that they heard him make the threats and he was discharged, but the justice warned him and all others that they would be severely punished if they should make seditious remarks.

The People's party convention in session at Sylvan Beach has issued an appeal to the farmers of the West for contributions of food for the unemployed of this city, whose plight is depicted in darkest colors. The president of each alliance in the West is asked to call a relief meeting at once and to call on the railroads to send contributions free to Davis Rousseau, 310 Mott avenue, New York city.

RELIEF PLANS AT CHICAGO.

Capitalists and Labor Leaders United in Behalf of the Unemployed.

CHICAGO, Aug. 21.—At the meeting of the trades assembly yesterday a committee of twenty-one was appointed to act with committees from other trade organizations to organize a working men's relief and aid committee. Appeals will be made to Lyman J. Gage, Franklin McVeagh, P. D. Armour, Mayor Harrison, S. W. Allerton and other prominent citizens and officials to assist in the work.

Saturday a conference between large employers and moneyed men and labor leaders was held, at which it was decided to arrange for a joint conference on a large scale between capital and labor to devise means for providing for the unemployed.

Eighteen hundred unemployed workmen, all foreigners, held a meeting yesterday to devise means to secure work. Mrs. Lucy Parsons and other noted Anarchists made fiery addresses. Most of the time was spent in drinking beer.

The Army Recruited by Laborers.

WASHINGTON, Aug. 21.—An army officer connected with the recruiting service says the prevailing hard times have driven a large number of men into the army as a means of livelihood. At present, he says, the army is nearer its maximum limit of 25,000 men than at any time since the war. There are rarely more than 22,000 men in the ranks, but now there are only about 254 vacancies and orders have been issued to recruiting officers to restrict the number of recruits. The physical examinations are very severe but in spite of this the number of applicants for the service has greatly increased.

Sugar Refiners Return to Work.

NEW YORK, Aug. 21.—"Boil sugar" was the message sent on the telephone wire to the night superintendent of the Havemeyer refinery in Williamsburg last night. It carried joy to 20,000 persons dependent on 4,000 employees of the refinery. The storehouse of the refineries were filled to overflowing with refined sugar last Thursday and no sugar was boiled after that night. Every day since then, as the stock undergoing refinement was disposed of, men in different departments were laid off. No one could tell when work would be resumed and the families of the sugar house workers were gloomy.

Buffalo Idle Men as Fire Bugs.

BUFFALO, N. Y., Aug. 21.—"We will burn the city if we don't get work," was the threat made by a gang of hungry Poles who appeared at the postmaster's office last week and told a pitiful story of having been hired by a contractor on city work and cheated by him out of their pay. It now appears as if this gang or some similar body of desperate men were trying to make good the threat. In the past four days a half dozen fires have started mysteriously in the lower part of the city.

Idle Foreigners Parade Quietly.

NEW YORK, Aug. 21.—Five thousand idle Polish and Russian cloak and clothing makers paraded Saturday evening and marched to Union square, where their leaders addressed them, counseling moderation and lawful agitation. Resolutions calling for the abandonment of convict labor in the interest of free labor were passed. The crowd was perfectly orderly and the police had nothing to do.

LIVE STOCK ON DISPLAY.

Opening of a New Feature of the World's Fair—Coming Events.

CHICAGO, Aug. 21.—Horses, selected from the choicest studs of the world, and fine cattle passed around the arena in the live stock pavilion in the presence of 20,000 people from all parts of the earth at the World's fair today. It was the opening of the live stock show at the White City and it is said to be the largest and most complete show of its kind ever held on the continent. It will close October 28, and each day in the meantime there will be a grand display of live stock. Besides the 1,200 head of cattle and 1,100 horses there will be 1,300 sheep and 1,200 hogs. In the south end of the grounds are forty stables each 200 feet long and forty-two feet wide equipped with everything to make a comfortable habitation for the competitors.

The Czar of Russia has sent twenty-one horses to the fair. Some of them have pedigrees that run back 125 years, and there are stallions in the group that $100,000 cannot buy. Gerard Capitaine of Cavalry F. U. Imaiott was sent as a special delegate to look after the horses. They are classed as standard Orloff trotters, heavy and light types, and Orloff half-breed saddle or weight carriers for heavy cavalry service.

Ninety-two newspaper men from South Carolina are doing the fair to-day.
