
VOICE OF THE PEOPLE.

KANSAS CITY, Mo., July 6.

EDITOR MAIL:—Your evening contemporary, the Golden Calf Cleveland worshiper, in explaining the effect of the direful Sherman law and the confidence inspired already by the call of congress, says: "With the prospect of a speedy remedy for this evil there have already appeared signs of reviving confidence." The signs of reviving confidence were so great that day that four business houses in the city were forced to assign and three banks in Pueblo, Col., as well as one at Garden City, Kan., closed, and other failures too small to mention occurred. As a prophet great is your neighbor!
