MRS. POTTER IS SHREWD.

She Is Again Laying Her Wires for the Mayoralty.

Mrs. Anna Potter is slowly but surely mending her political fences in Kansas City, Kan., for her Mayoralty campaign next year. She ran for the office last year against Mayor Barnes and only got a hundred votes. She is a plucky woman, however, and not to be discouraged. After her defeat she immediately began to investigate the weak points in her last campaign.

She discovered that the women of Kansas City, Kan., prompted by the Suffrage club, polled a great many votes, few of which were deposited in her favor. She had previously attended the Suffrage club's meetings, but was of the belief that because she had not become actively identified with the association that it refused her its support as a body. At once she proclaimed to the public that she would run for Mayor a second time and that the women must support her. She attempted on several occasions to join the club after this announcement, but was unsuccessful in the endeavor to have her name enrolled until last Saturday, when her initiation fee of \$1 was accepted. Hereafter the Suffrage club must listen to her troubles.

Mrs. Potter is probably the only woman in the Sunflower State who is a member of two Suffrage clubs. The story of how she became a member of the Suffrage club in this city has been told in THE TIMES. She once attended a meeting of the club. She was not known. Some enthusiastic sister whose ambition for new members was great, grabbed her by the arm and rushed her to the enrollment book. When she wrote her name a frightful calm passed over the assembly. Since that time Anna Potter has been an avowed suffragist, and nowadays this determined candidate for Mayor of the Kansas metropolis is pursuing a still hunt for the desired political honors whenever she can spare the time from her new building. She expects to go into the race with such a heavy following as to compel all the other parties to combine to defeat her.

Another mission Mrs. Potter has in joining the Kansas Suffrage club is to do away with the rule upon which the association is founded, that it remain non-partisan. She fears that the Republicans are secretly working to control the club, and thus prevent her indorsement for Mayor by the organization.

Died of Heart Disease.

A. C. Irwin, a contractor, 53 years old, died suddenly at his home on Twelfth street, east of the city limits, Tuesday evening. He had been walking around in apparently good health when he suddenly fell and in a few minutes expired. Dr. Callaghan, deputy coroner, who was called yesterday to investigate the cause, found that Irwin died of heart disease.

 CLINTON, MO., Sept. 6.—T. M. Roberts, forty-two years the agent of the Missouri, Kansas and Texas railway at this place, and

discussion of the great need of a police matron. Mrs. Fisher, president of the Women's Humane society, told of seeing a drunken woman carried into the police station recently and thrust into a cell to sober up among the worst classes of the city, and then sentenced to a term in the Work-house without one of her own sex to speak a friendly word to her. Mrs. Fisher said she went to Chief Spagers and begged him to use his influence to have a matron appointed. She said that a Christian woman should be on hand to speak some word of cheer to every girl or woman arrested.

Mrs. Austin said that a police matron might, could, would and should be appointed. The women of Kansas City, she said, had determined to rise in their might and never rest until this end was gained. She spoke of the inefficiency of having big policemen handle every young girl or woman arrested. She said that this sort of arrangement had gone far enough and that the respectable women of this city were going to stop it. She objected to men searching all the women arrested.

A committee was appointed to wait upon the stock-holders of the Inter-State fair association and ask that a day during the fair be set apart and named Women's day.

MILITARY BOARD OF KANSAS.

Proposed School of Instruction for Military Officers.
 Special to the Kansas City Times.

TOPEKA, KAN., Sept. 6.—The State Military Board in session today received the report of the committee appointed at the last meeting to investigate the proposed plan of a school of instruction for militia officers at Fort Leavenworth. The committee reported that at an expense of \$1,000 officers of the State militia could be given one week of thorough instruction each year by the officers of the regular army. The report meets with general favor among the members of the board, and will be adopted. The efficiency of the militia, it is expected, will be greatly improved in this way.

Governor Lewelling some time ago received requests from a number of commissioned officers of the regular army for appointments on his staff. The question of the advisability of making the appointments as requested was submitted by the Governor to the board for discussion. It is believed that the appointment of officers on the Governor's staff will have a tendency to bring the regular army and the national guard into closer relations and result to the advantage of both.

Light House System Badly Damaged.

WASHINGTON, D. C., Sept. 6.—The damage to the light house system along the southern coast was so serious by last week's hurricane that it is probable the light house board will have to ask Congress for a special appropriation to make the necessary repairs. Reports to the Treasury department show nearly all the light houses along the South Carolina coast sustained damage, and while it was small in some cases, on the whole the system received such a blow it cannot be well retrieved without special legislation. Reports have not been received from some of the remote stations, but it is thought none except near Charleston have suffered much.

Canadian Labor Congress Meets.

MONTREAL, Sept. 6.—The annual session of the Trades and Labor congress of Canada opened here yesterday. President Beeles in his annual address congratulated the congress on the strides made abroad toward reforms necessary to happiness and contentment, but regretted the exodus of Canadians. The treasurer's report showed the finances of the congress in a satisfactory condition. The report of the executive committee regretted that during the past session of Parliament no bill for the labor interests had been introduced or enacted.
