

TO FINISH WINNER BRIDGE

Kansas City, Mo., March 20.—It is announced by the Kansas City and Atlantic Railway Co. which owns the uncompleted Winner bridge across the Missouri river at this point says the bridge will be finished at once.

When completed, this will, it is stated, give the Baltimore and Ohio and Chicago and Northwestern railroads entrance to Kansas City. It is probable that Frank D. Moore of St. Louis, the architect and builder of the Eads bridge will be architect and the general outline of the St. Louis bridge may be followed.

WILL CALL A STRIKE
