**New Line from Kansas City to St. Joseph.**

St. Joseph, Mo., May 20.—A new project to build an electric line between Kansas City and St. Joseph, it is said, is about to be sprung. Denison, Prior & Co., of Cleveland and Boston, are to be the substantial people behind the enterprise. The plans provide for a straight line between the two cities, the route to pass through Hyde Valley and to the Winner bridge, Kansas City, by way of Platte City.
